JOB APPLICATION LETTER

I am writing to express my interest in the position at your company. With my strong background in web development and UI/UX design, I believe I can make valuable contributions to your team.
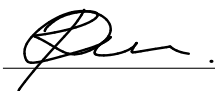

As a front-end engineer with expertise in Next.js, TypeScript, and modern frameworks, I've consistently delivered results that benefit both users and business goals. At JB Decorative Concrete, I developed a responsive Next.js website that increased traffic by 30% through modern SEO practices while improving conversion rates through targeted UX research. I also created a library of reusable marketing visuals that accelerated content updates by 35% and maintained brand consistency across all digital touchpoints.

My project portfolio demonstrates my technical versatility and problem-solving abilities. My technical skill set includes TypeScript, JavaScript, React, Next.js, Astro, and various modern frameworks, complemented by proficiency in UI/UX tools like Figma and the Adobe Suite. I excel in remote collaboration environments and approach each project with a focus on creating exceptional user experiences.

Thank you for possibly considering my application, I look forward to working together

Attachments: CV, grades, certificates

Sincerely,

Riandre van der Voorden
